

SONICARE COMPATIBLE REFILLS

Keep your electric routine â€” ditch the plastic-heavy habit

Swap, click, brush.

These bamboo electric toothbrush heads are designed to fit most Philips Sonicare click-on handles, so you can keep what works while reducing everyday oral care waste.

Bamboo handle â€¢ Bio-based bristles â€¢ 4-pack convenience

Shop Bamboo Heads

Always mindfully packaged without plastic

Key Benefits

Compatible with most Sonicare click-on models

Charcoal-infused castor oil bristles

Inherently antimicrobial bamboo

Dentist-recommended 3-month swap cycle

4 Pack Bamboo Electric Toothbrush Heads

Sonicare-compatible refill heads with medium/soft bristles made from castor bean oil and blended with charcoal.

Includes 4 refill heads in a kraft paper box.

WHY SWITCH

Electric brushing, with a lower-waste refill

If you love your electric toothbrush performance but want a more mindful refill option, these heads are an easy step forward.

The bamboo base and bio-based bristles are designed for everyday use while helping you reduce plastic-heavy swaps.

Why people choose this refill:

- “Fits most Philips Sonicare click-on toothbrushes
- “Castor oil and charcoal bristles for daily brushing
- “Renewable bamboo body with inherent antimicrobial properties
- “Easy 4-pack for routine head replacements
- “Packed in kraft paper instead of plastic clamshells

MONTHS*

**Based on replacing one head every 3 months.*

HOW IT WORKS

3 simple steps to swap and brush

Remove old head

1

Pull off your current Sonicare click-on replacement head from the handle.

Click in refill

2

Press in the bamboo refill head until securely attached and ready for vibration.

Replace every 3 months

Keep your oral care routine effective by changing to a fresh head each quarter.

FEATURES & BENEFITS

Built for performance and mindful design

Sonicare click-on compatible

Designed to fit most Philips Sonicare click-on electric toothbrush handles, including 9-series models.

Bio-based bristles

Medium/soft bristles are made from castor oil and blended with charcoal.

Renewable bamboo body

Functional PLA insert

Bamboo is a fast-growing renewable resource with inherent antimicrobial properties.

The bottom insert is made from cornstarch PLA and helps the metal connection vibrate effectively.

Convenient 4-pack

Four refill heads in one purchase helps you stay stocked for regular replacement intervals.

Kraft paper packaging

Refill heads are packed in a kraft paper box for a more mindful unboxing experience.

WHAT CUSTOMERS SAY

A cleaner swap for electric brush users

Perfect fit

â€¦â€¦â€¦â€¦â€¦â€¦â€¦â€¦

"Snapped right onto my Sonicare handle and feels great. Love having a less wasteful option without giving up my electric toothbrush."

â€” Marissa T.

Quality bristles

â€¦â€¦â€¦â€¦â€¦â€¦â€¦â€¦

"The bristles are gentle but still clean well. I like that they're castor-oil based and charcoal infused."

â€” Diego R.

Great refill pack

â~...â~...â~...â~...â~...

"The 4-pack is convenient, and I appreciate the kraft paper packaging. Easy upgrade for everyday oral care."

â€” Priya K.

TECHNICAL TRANSPARENCY

Materials and compatibility details

Designed as a compatible refill for most Sonicare click-on brushes while prioritizing renewable and bio-based materials where possible.

Bristles

Made from castor oil and infused with charcoal. Medium/soft feel for regular brushing.

Insert material

Cornstarch PLA insert at the base helps maintain fit and vibration performance.

Compatibility note

Fits most Philips Sonicare click-on models. Not compatible with screw-on, specialty models, or Oral-B.

REPLACEMENT GUIDE

When to change your toothbrush head

Dentists typically recommend replacing your toothbrush head every **3 months** for best performance.

Month 1 – Fresh head

Month 2 – Daily use

Month 3 – Time to replace
